Your Personal Rate of Return: Your Personal Rate of Return measures the investment performance of your account. It incorporates the timing of your additions and withdrawals and reflects commissions and fees paid. Reviewing Your Personal Rate of Return is important to help ensure you're on track to achieving your financial goals.

The performance of your investments is tracked since they have been held in the current account, but no earlier than Jan. 1, 2009. This also includes investments you owned during this time period but have since sold. Certain events, including a transfer of an investment between accounts, share class conversion, or change in an investment's identification code (CUSIP) caused by a corporate action, will impact the time frame over which the investment's rate of return is calculated.

Information used to calculate performance may have been obtained from third parties and Edward Jones cannot guarantee the accuracy of such information.

*Your Rate of Return for each individual asset above is as of September 28, 2018. Returns greater than 12 months are annualized.

Your Rate of Return in the Asset Details section above measures the investment performance of each of your individual assets. Your Personal Rate of Return: Your Personal Rate of Return measures the investment performance of your account. It incorporates the timing of your additions and withdrawals and reflects commissions and fees paid. Reviewing Your Personal Rate of Return is important to help ensure you're on track to achieving your financial goals.

The performance of your investments is tracked since they have been held in the current account, but no earlier than Jan. 1, 2009. This also includes investments you owned during this time period but have since sold. Certain events, including a transfer of an investment between accounts, share class conversion, or change in an investment's identification code (CUSIP) caused by a corporate action, will impact the time frame over which the investment's rate of return is calculated.

Information used to calculate performance may have been obtained from third parties and Edward Jones cannot guarantee the accuracy of such information.

*Your Rate of Return for each individual asset above is as of November 30, 2018. Returns greater than 12 months are annualized.

Your Rate of Return in the Asset Details section above measures the investment performance of each of your individual assets. It incorporates the timing of your additions and withdrawals and reflects commissions and fees paid.
